Your question

Is compensation correlated with performance rating, and are there any high-paid low performers?

Analyze

Chart

Compensation vs Performance Rating

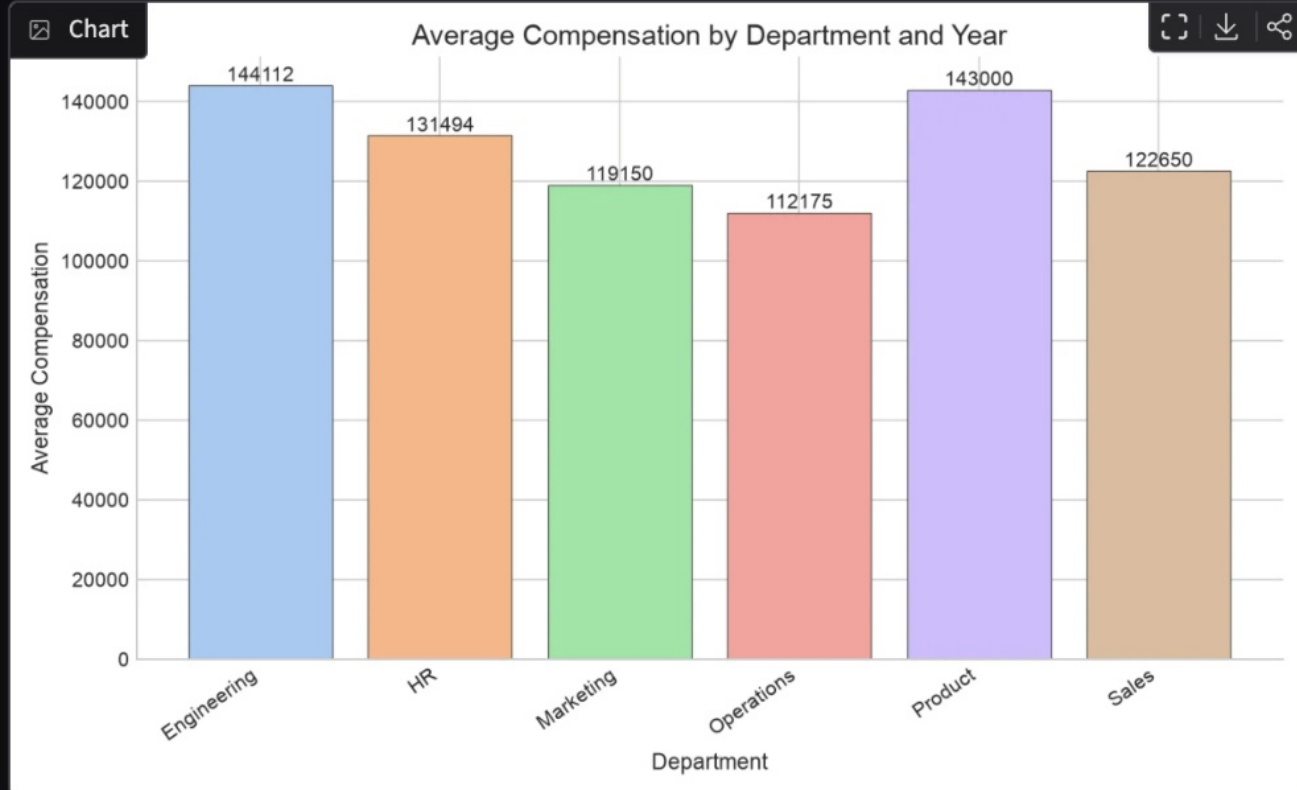

## Summary

The compensation of employees is moderately correlated with their performance ratings, as indicated by a correlation coefficient of 0.2746. However, there are instances of high-paid employees who do not perform well, such as EMP1099 in Engineering with a compensation of \$163,650 and a performance rating of only 3.5.

Your question

How has average compensation changed by hire year?

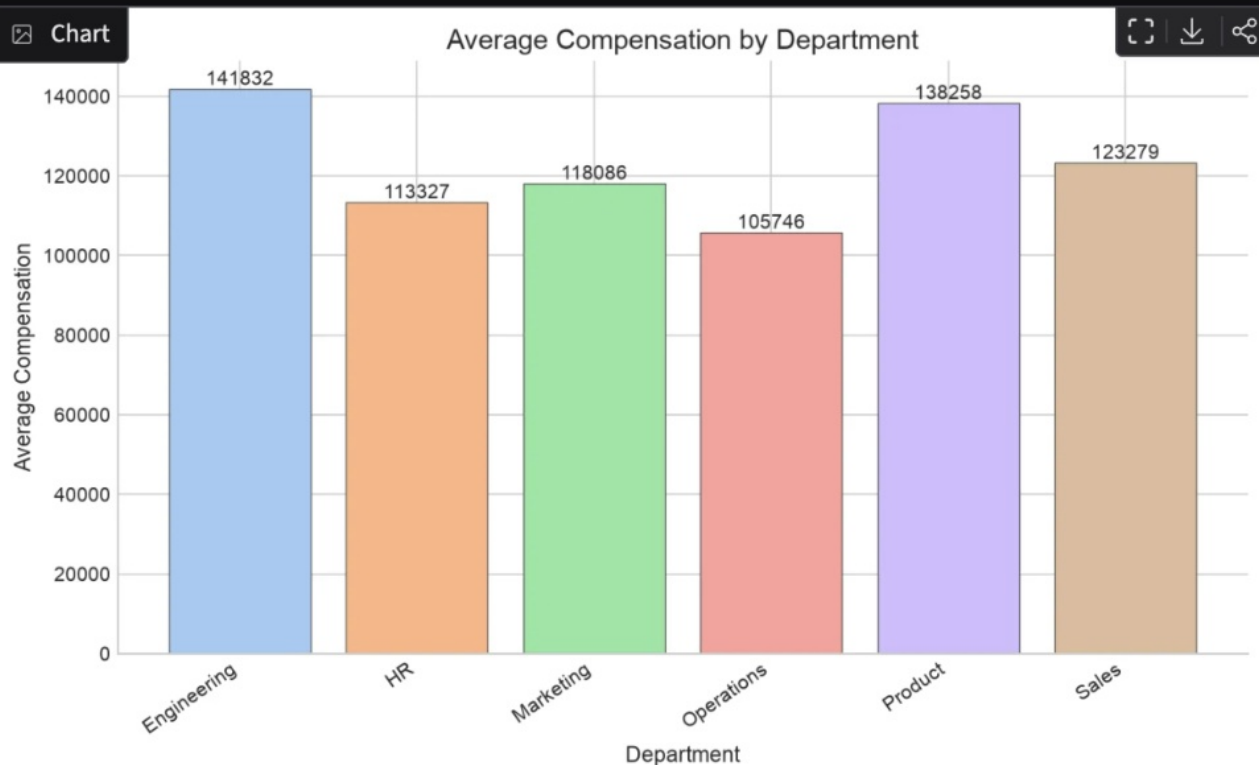

### Summary

The average compensation across all departments has generally increased from 2019 to 2025. Engineering saw a slight decrease in average compensation from \$144,113 in 2019 to \$138,357 in 2024, while HR showed an increase from \$131,494 in 2019 to \$109,333 in 2024. Product and Sales departments also experienced fluctuations, with Product showing a decrease from \$143,000 in 2019 to \$136,700 in 2022, and Sales increasing from \$122,650 in 2019 to \$114,875 in 2024.

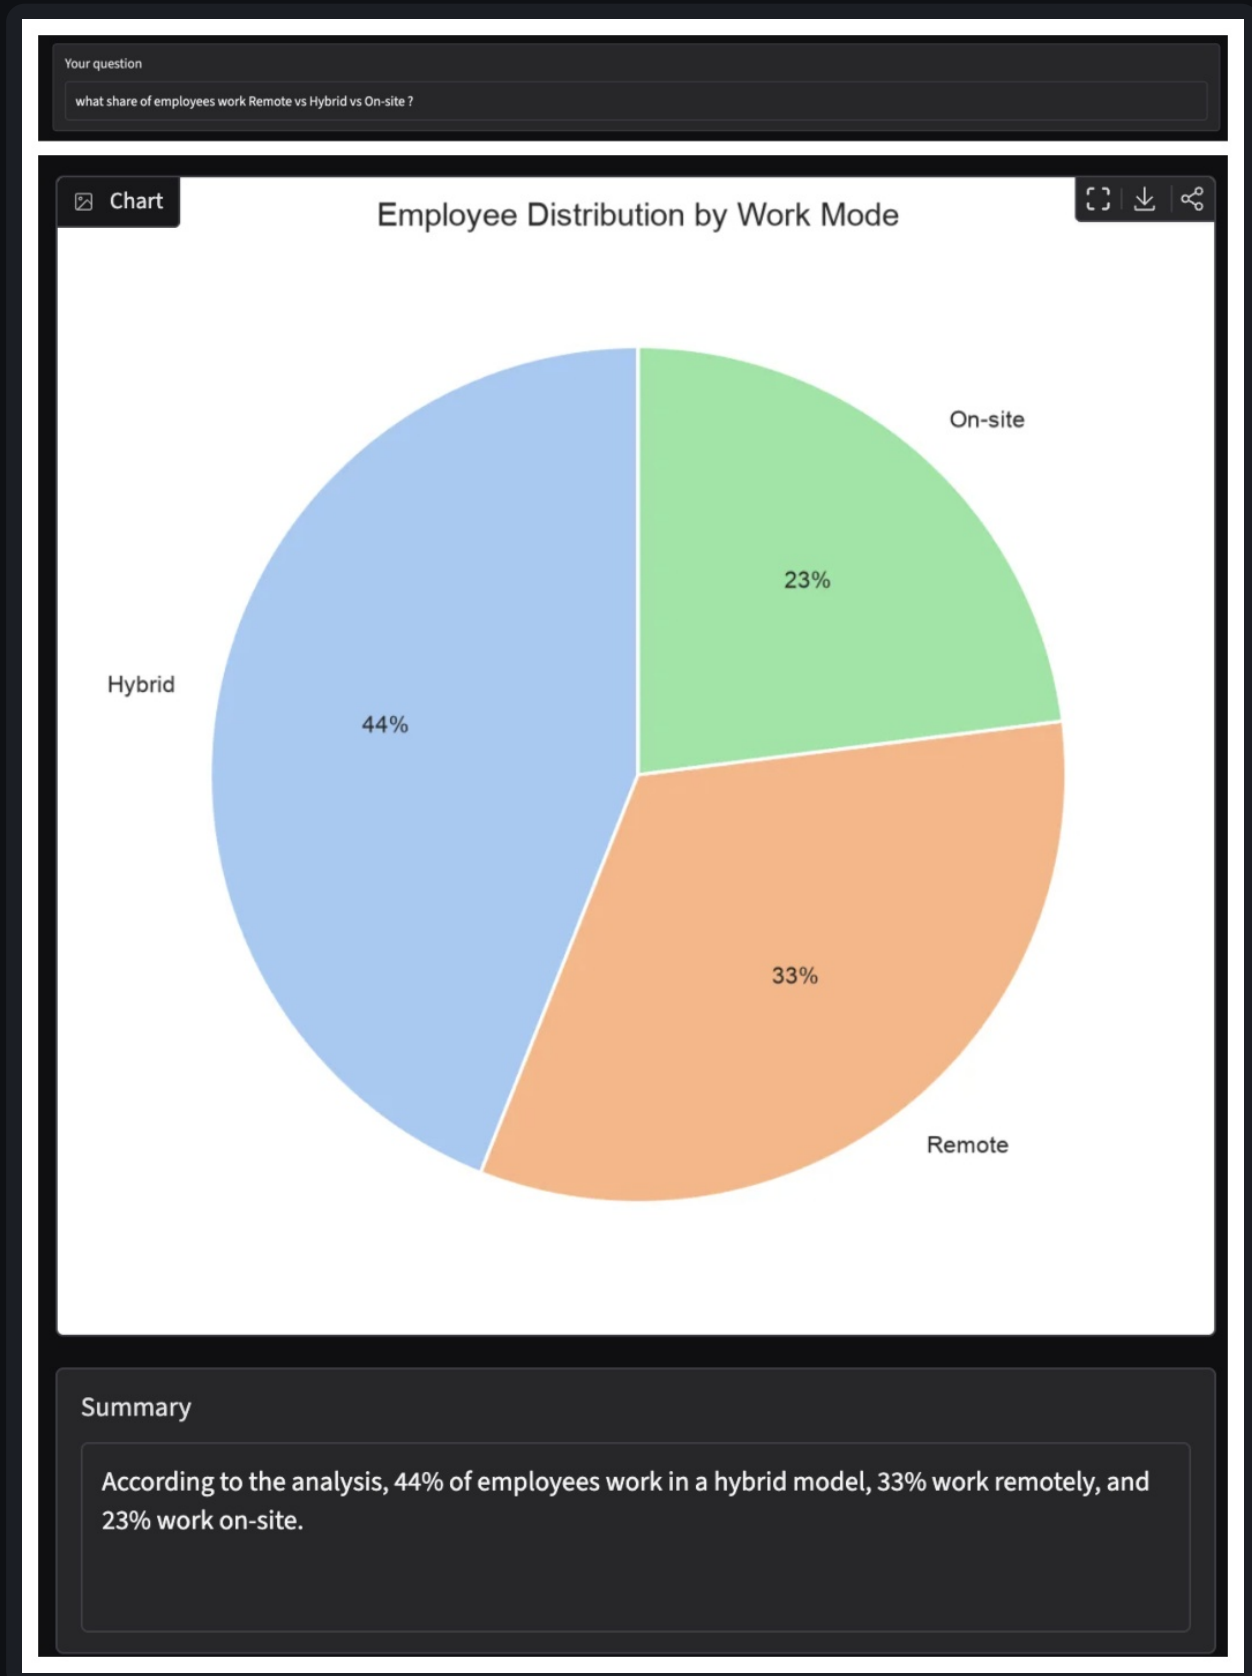

Your question

What is the average compensation by department?

### Summary

The average compensation across all departments is as follows: Engineering has an average of \$141,832, HR at \$113,327, Marketing at \$118,086, Operations at \$105,746, Product at \$138,258, and Sales at \$123,279.

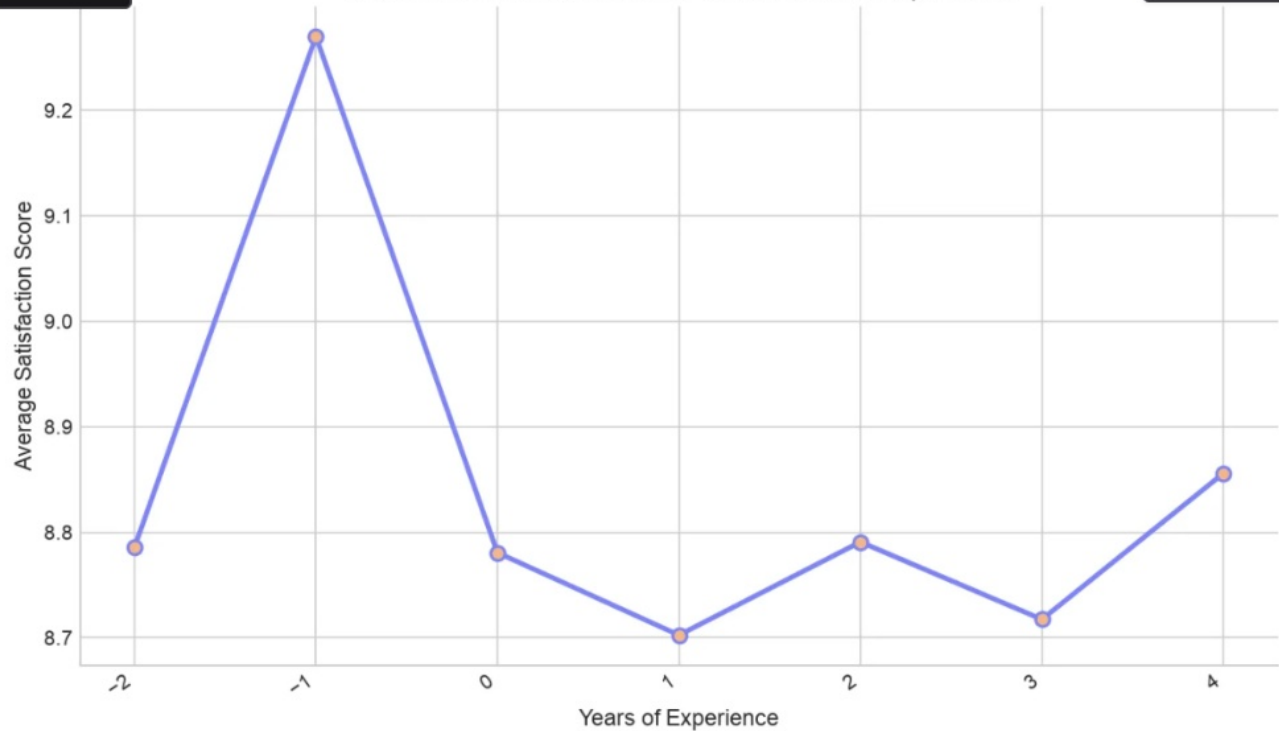

Your question

How does satisfaction score trend with years of experience?

Chart

Trend of Satisfaction Scores Over Years of Experience

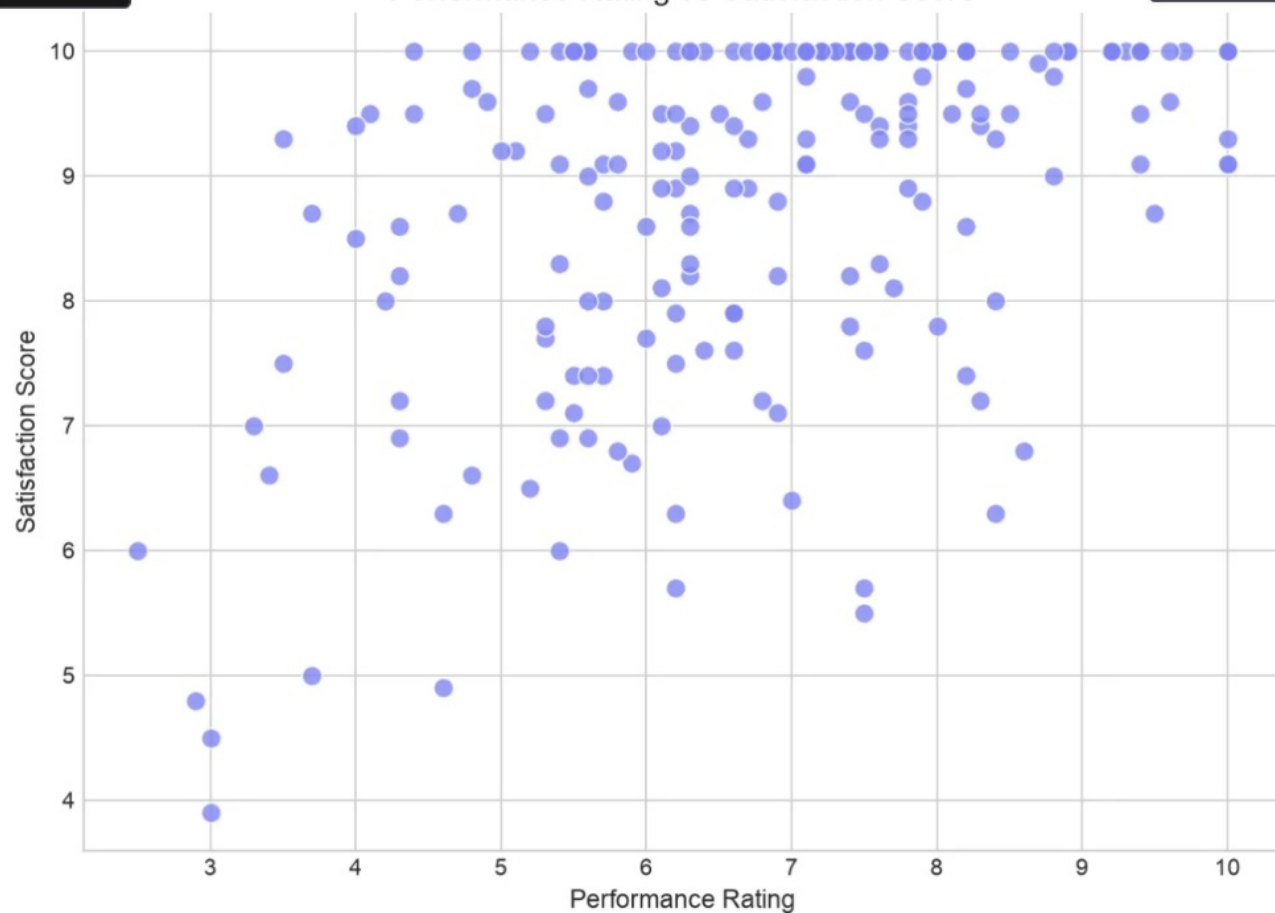

Your question

Does performance rating correlate with satisfaction score?

Analyze

Chart

Performance Rating vs Satisfaction Score

## Summary

The performance rating and satisfaction score are moderately positively correlated, with a correlation coefficient of 0.47. This means that as performance ratings increase, satisfaction scores tend to rise as well, but the relationship is not very strong.

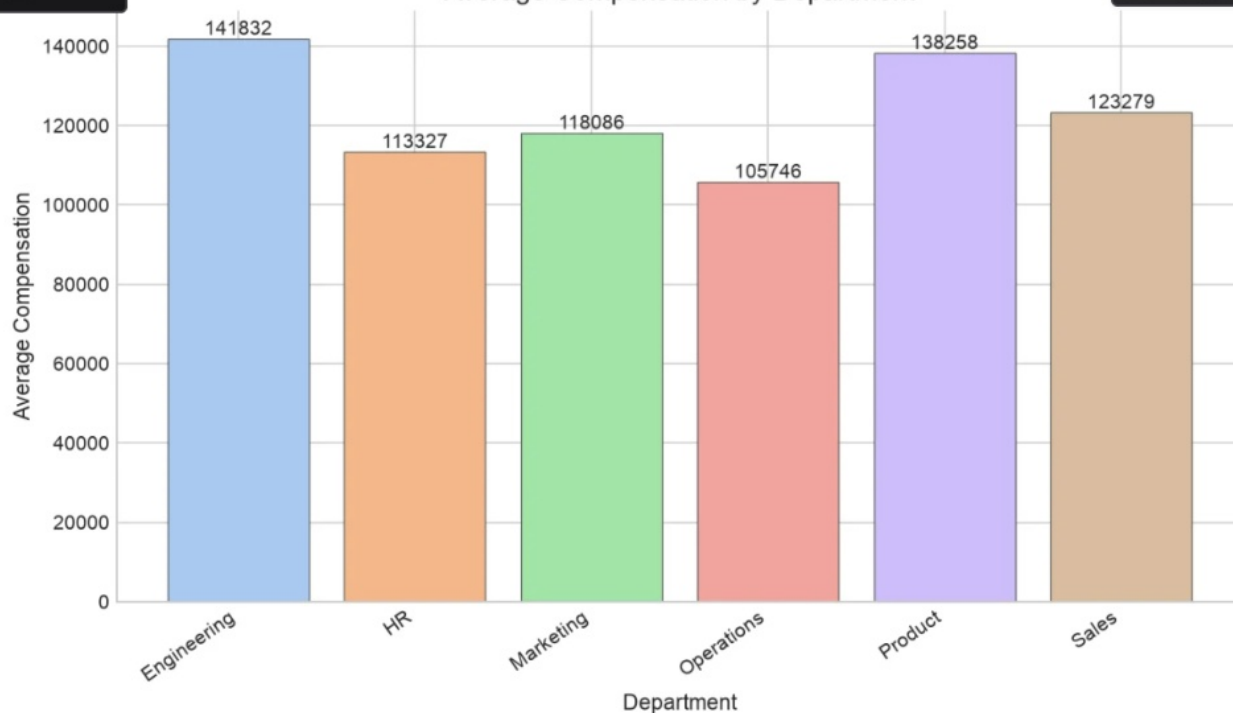

Your question

How does average compensation vary by department?

Analyze

Chart

Average Compensation by Department

## Summary

The average compensation varies significantly by department. Engineering has the highest average compensation at \$141,832, followed closely by Product at \$138,258. Sales and Marketing have lower averages of \$123,279 and \$118,086 respectively. HR has the lowest average compensation at \$113,327.
